## **We Had Visitors: Welcome!**

**Most of you may be aware that Patrick Dunn has returned to do another Dietetic Intern rotation on the teaching floor. Last week, Patrick's classmates from the Maryland/Virginia Dietetics Internship program came to visit and spent the day helping him at CSS. They all got first hand experience seeing what it is like to work in the teaching kitchen with clients, preparing the Snack Zone, and of course, cooking tasty foods! For Tasting Tuesdays, the interns whipped up a batch of air fried French fries and they were very well received. It was a pleasure having them here with us for the day. Thanks for visiting!**

We are doing tastings on some of our standard recipes. We hope to gain some insight into what makes a recipe popular within the CSS community.
